

# Poldina \_Table

Poldina is a rechargeable battery-powered cordless table lamp. A "touch" control on the head allows switching on/off, dimming, and selecting the color temperature of the light (2200 K, 2700 K or 3000 K). It is suitable for both indoor and outdoor use (except gold, silver, and copper finishes). An electronic control system monitors the remaining autonomy and ensures a constant luminous flux until the battery runs out. Recharging is therefore optimized and always properly done. Poldina comes with a contact charging base; the battery charger is included. The lamp can be customized with a ceramic cover, to be purchased separately
