

# Swap \_Table

Swap is a rechargeable battery-powered cordless table lamp. A "touch" control on the base allows switching on/off and dimming. It is suitable for both indoor and outdoor use. An electronic control system monitors the remaining autonomy and ensures a constant luminous flux until the battery runs out. Recharging is therefore optimized and always properly done. The lamp comes with a contact charging base; battery charger included. Swap can be customized with glass, ceramic, or fabric lampshades, to be purchased separately

## LD1021

Ceramic lampshade that is fixed to the head of the lamp with a magnet. The close partnership with a historic factory in Civita Castellana - a village near Rome, where the art of ceramics has been practiced since the 10th century BC - allows Zafferano to rely on the exclusive production of made in Italy artifacts, which are handpainted according to Zafferano design; customization available.
