

Sister Light mini _Table

Sister Light mini is a rechargeable battery-powered cordless table lamp. A "touch" control on the head allows switching on/off, dimming (4-step: 100%, 60%, 30%, 6%) and selecting the color temperature of the light (2700 K, 3150 K or 4000 K). It is suitable for both indoor and outdoor use and salt spray resistant (1500 h). The head of the lamp comes screwed to the stem; it can be converted to magnetic fixing and detached to become an emergency light. The base of the lamp is designed to be mechanically fixed to a table. An electronic control system monitors the remaining autonomy and ensures a constant luminous flux until the battery runs out. Recharging is therefore optimized and always properly done. The lamp comes with a USB Type-C cable per recharging; the battery charger is not included.
